

# VICK'S

## WHOLESALE LIST OF

## SEEDS, BULBS, PLANTS,

## AND

## FLORISTS' SUPPLIES.

**FOR DEALERS ONLY.**

We present to dealers our WHOLESALE PRICE LIST for 1881. The seeds quoted are to be relied on as fresh and strictly pure, and of the finest quality, largely grown on our own seed-farms, or under our own inspection. It has been our aim to supply the public with seeds of a superior strain, such as will produce the finest vegetables and most perfect flowers. Our immense retail trade, and the rapidly increasing demand by merchants for Vick's seeds, leads us to believe that our efforts are appreciated. Considerable variation in prices will again be noticed this year, crops which require a long season to mature and ripen their seed being to a great extent cut off by the severe early frosts; particularly among these are varieties of Beans, Cucumbers, late sorts of Sweet Corn, and Squash. On the other hand, Cabbage, Onions, Peas, and Turnips, ripening their seeds early, produced abundant crops, and we are able to offer at lower rates.

We send out *no seeds on commission*. Fresh and pure seeds cannot be supplied at a profit by any house on that plan. Merchants who thoughtfully consider the best interests of their customers, and who desire to build up a good seed trade, will not keep commission seeds for sale.

**Shipping.**—Purchasers will please send explicit shipping instructions with each order; where no such instructions are given, we shall exercise our best judgment in the matter. We deliver all goods free on board cars, or to Express company, making no charge for cases or packing; but, when goods have been so delivered, in first-class condition, addressed as ordered, we disclaim all responsibility for any accident, damage or delay that may occur on the route. We pay no freight or express charges unless by special agreement. When goods are desired sent by mail, postage must be added at the rate of twenty cents per pound. Cloth bags, when necessary, will be charged at cost.

**Terms.**—Orders amounting to Ten Dollars, or less, must be accompanied by the cash. To regular customers, orders exceeding that amount for seeds, bulbs, or plants, made before June 1st, will be due at that date, and those made after that time will be due December 1st. A discount of one per cent. per month will be allowed when payment is made previous to these dates. Bills for Florists' Requisites, such as Baskets, Bouquet Papers, Grasses, Immortelles, Wire Designs, etc., due sixty days from date of bill. *Grass Seed, Clover Seed, Potatoes, and Onion Sets invariably net cash.* Satisfactory reference required from all new or unknown correspondents desiring credit. We decline to send C. O. D. unless a partial remittance is made as guarantee of good faith.

## PRICES OF FLOWER AND VEGETABLE SEEDS.

Not less than 100 papers at the 100 rate, nor less than 1000 papers at the 1000 rate. Dealers who prefer, can make their own selection from our retail catalogue at above rates, provided not less than 100 papers are ordered, nor less than five papers of a kind. Where a less quantity is desired, a discount of 50 per cent. from retail prices will be allowed.

Ounce papers of Vegetable Seeds 40 per cent. discount from retail prices. Flower Seeds by the ounce and pound, and Vegetable Seeds by the pound, quart, peck, and bushel, are priced net in the body of this catalogue—pints at quart rates, four quarts at peck rates, and twenty pounds at hundred pound rates.

## BOXES OF FLOWER AND VEGETABLE SEEDS.

For the convenience of small dealers we put up boxes of seeds in papers, embracing those varieties most in demand, and in such proportions as our long experience has taught us are called for. The boxes are neat, showy, and convenient for retailing from.

*The Box of Vegetable Seeds* contains 200 five and ten cent papers; retail value \$12.00, price to dealers \$5.00, delivered on board cars or to Express Co.

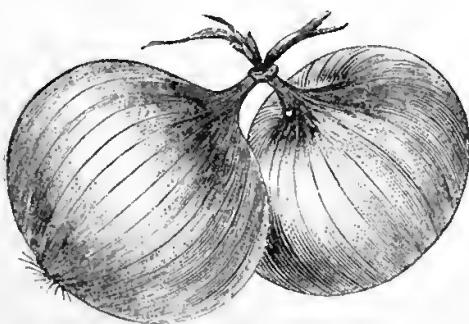

*The Box of Flower Seeds* contains \$10.00 worth of retail papers; price to dealers, \$4.00. As these boxes are filled early in the season, before the press of business begins, no changes can be made from the assortments we have put up.

Handsome large SHOW CARDS, lithographed in colors, furnished with first order.

For the assistance of those selling our seeds, we will furnish our beautiful Floral Guide, when desired, at \$3.00 per hundred; our retail price for same is ten cents each, which is much less than cost.

## ONION.

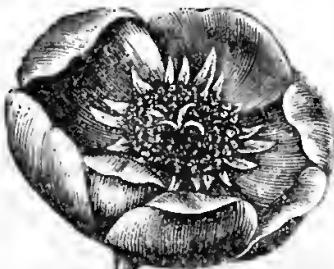

## DANVERS YELLOW GLOBE.

Give the Onion a clean, rich soil, and get the seed in the ground as early as possible in the spring. Sow in wide, shallow drills, not less than twelve inches apart; the seed in the drills should be scattered evenly, say half an inch apart. If too thick, thin out a little when the Onions are the size of quills. Keep the ground clean from weeds, but don't draw the earth over the young Onions.

Danvers Yellow Globe is a fine, large, rich, yellow, globe-shaped Onion. One of the handsomest grown.

Price, Cents.

SINGLE PORTULACA.  
MIXED COLORS.

The Portulaca delights in hot sun and a sandy, dry soil, and makes a most brilliant show in sunny weather. Seed may be sown in the bed, or house. Transplants freely.

Price, 5 Cents.

## GLADIOLUS.

For many years we have been growing GLADIOLUS in very large quantities, both from imported Bulbs and Seeds, and our collection is now unsurpassed, if equaled, by any in the world.

The varieties named below are all of our own growing, and very fine bulbs. The errors and mixtures which so often occur with imported bulbs we have carefully corrected when the plants were in flower, so that we can say that we believe our stock to be *absolutely true to name*, while our prices will be found much lower than those of European growers. We therefore call attention to the following list, and solicit orders from the trade.

## PLANTS and BULBS.

The plants named are offered at the rates quoted, provided that not less than six of each class or variety are taken. No order will be filled from this list for less than five dollars.

While we wish to allow our customers to select the varieties of Geraniums, Roses, &c., still we reserve the right to substitute, in case our stock will not warrant the sending kinds chosen.

Many of our customers select new and high priced plants from our FLORAL GUIDE, and expect us to furnish them at the same price we offer their respective class here. This we cannot do; but will allow a discount of 50 per cent. on all new or high priced plants, and  $33\frac{1}{3}$  per cent. on bulbs not offered in the following list.

NOTE.—On page 97 and 98 of our FLORAL GUIDE, we offer plants and bulbs in collections at very low rates. This is done for the benefit of our retail customers. Where such collections are ordered by those in the trade, we shall bill the plants or bulbs at prices given in this list.

No charge made for packing. Purchasers to pay their own Express charges.

## ROSES.

We take pleasure in calling the attention of our customers to the great inducement we offer in Roses. Our stock is in splendid condition. The plants are all pot grown, vigorous and healthy, and we think the price is as low as good plants can be obtained. We have in stock all the leading and standard varieties, and wish to leave the selection to the persons ordering; but should our stock of one or more varieties be exhausted, we reserve the right to fill all orders to the full number, either by adding to other varieties that may be ordered, or by substituting, unless otherwise directed.

## NEW POLYANTHA ROSE.

(LITTLE WHITE PET.)

This is the best and most useful Rose of its class. The flowers on opening are light pink, but change to pure white, thus making it very desirable for cutting. It blooms almost continuously and is in all respects a first class Rose, which should be in every collection. We imported this variety two years ago and found it such a little beauty that we made every effort to increase our stock to such an extent as to be able to meet a large demand. Fine plants per hundred \$10.00; each 15 cents.

## STRAWBERRIES.

James Vick. This is one of the most promising new Strawberries now before the public. It has qualities that make it desirable either for market or the home garden. It is a heavy yielder; the color is the most desirable that a Strawberry can have for marketing, and the fruit may be allowed to remain on the vines a week after it is ripe without the slightest injury. This point alone is very valuable, especially when we have such continuous rains as those of the past season. Then, again, in the home garden it is advantageous, as there are many times that it is not convenient to pick berries as soon as ripe. The fruit is of medium size, bright scarlet turning to crimson, and borne on long, stout stems, that keep the larger portion of the fruit clear from the ground. In fact, we think this variety will give general satisfaction as to yield and quality.

PAINTED.

Painted Labels. The entire surface of these labels is thoroughly saturated with paint, making them write smoothly, and leaving a deep black and permanent impression from an ordinary pencil. Our new process also preserves the labels from decay, especially on the point inserted in the earth, which part is not usually painted when done by hand.			
Add 30 per cent. to above prices where painted labels are desired.
